

# RAPID NETWORK EXPANSION, NEVER-ENDING TURNKEY POWER

## HCI Energy is helping close the wireless gap by providing eco-friendly, sustainable power options.

HCI Energy helps telecom providers rapidly expand their networks and keeps them running more efficiently and without interruption. Whether you are rolling out a network in a pre-grid, off-grid, or unreliable grid situation, HCI Energy delivers turnkey, hybrid, renewable power that never stops. We work with wireless carriers, WISPs, and regional telecom providers to help them take advantage of government funds and tax incentives so they can deliver uninterrupted service for satisfied customers and communities.

- ✓ Speeds up network deployment.
- ✓ Turnkey, hybrid power: pre-grid, off-grid, on-grid.
- ✓ Delivered ready to deploy anywhere with integrated renewable options.
- ✓ Reduced maintenance and cost, lower power draw.
- ✓ Reliability and redundancy with battery-first architecture.
- ✓ Sustainable investment. ESG compliant.

**“People travelling this economic corridor and vital connection between communities will no longer be out of cell service range if they need to call for emergency services. It is a critical milestone in helping prevent future tragedies along this route, bringing comfort to people who use the highway and are now safer because of this connectivity.”**

*British Columbia's Minister of Citizens' Services speaking on Highway of Tears*

## HCI'S ZERO-GLITCH POWER MODULE™ (ZPM)

Go beyond traditional UPS back-up with HCI Energy's ZPM. The ZPM is also integrated into every HCI power system.

## HCI HYBRID POWER SHELTER™

HCI Energy's Hybrid Power Shelter is a turnkey powerhouse that incorporates everything necessary to bring continuous, reliable power to even the most remote and rugged locations.

**Never Lose a Second with HCI Energy!**
